

Mecano Slide

Mecano Slide

for top hung glass doors up to 80 kg

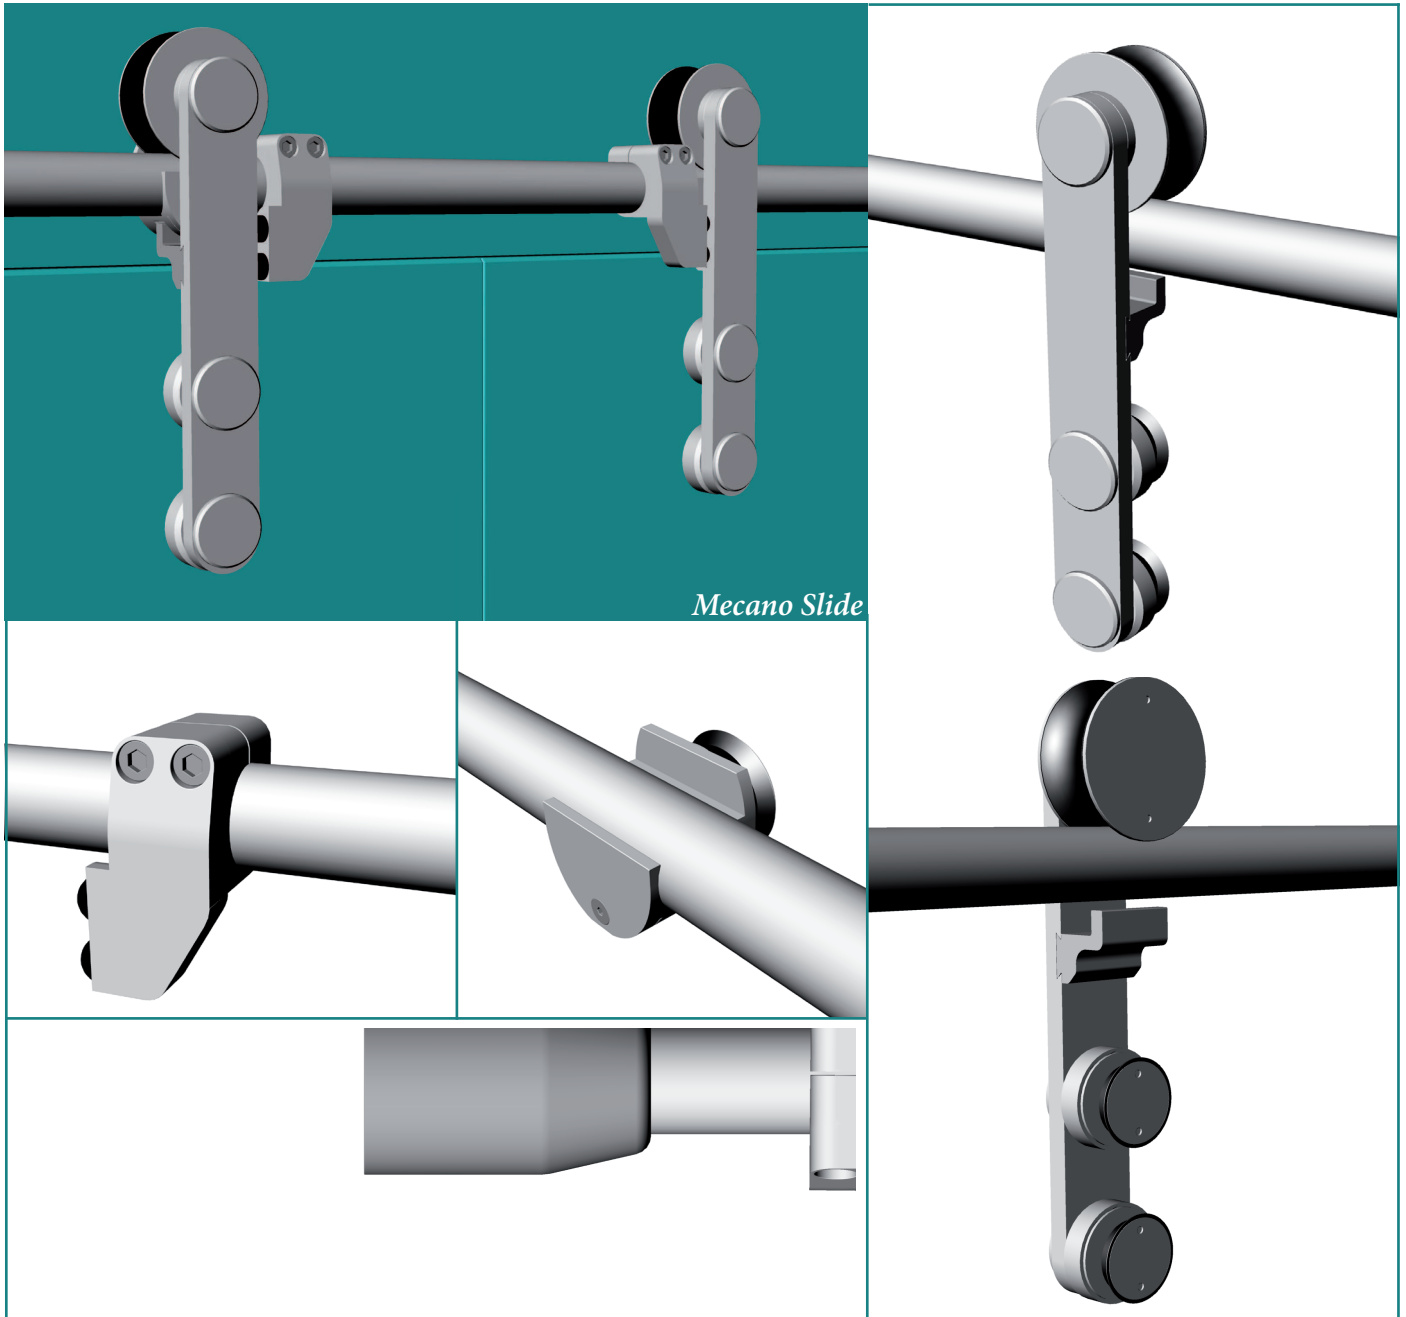

- Mechanical stainless steel design in Aisi 304. A stylish solution for modern offices, apartments, lofts...
- Solid stainless steel clamps fixed on the glass by means of screws with nylon parts that fit into countersunk holes in the panels. A second version with standard round holes is also available. The wheels with a nylon part inside slide on top of a stainless steel tube. Two stoppers to adjust the right position of the door in closed and open position. Adjustable stainless steel floor-guide for several glass thicknesses.

Specification

Maximum door weight: 80kg
